

Laughter is the Best Medicine

*The Fart Machine played a big part in
“Dear Old Dad’s’ recovery from a serious stroke*

Dear Sirs

I am just writing a very brief note to thank you so very much for the wonderful 'fart machine' which I have now had the pleasure of using for two years.

Actually, I have just purchased my third model [remote control] and I'm very pleased that I have finally tracked down the manufacturers and suppliers in case anything happens to this one.

Two years ago my dear old Dad suffered a serious stroke and spent a few months in hospital. This was when I first discovered the magic of your machine. It played a huge part in his speedy recovery with just the simple joy of providing such an enormous laugh in his medical ward. My timing was [and still is] perfect with the machine and I've used it in just about every conceivable place possible.

... magic of your
... huge part in his speedy recovery with just the
simple joy of providing such an enormous laugh in his medical ward. My
timing was [and still is] perfect with the machine and I've used it in just
about every conceivable place possible.

If you do decide to cease manufacturing these machines, do you think you could possible let me know, so as I may purchase cratefuls of them for future use.
